CSLB #21-18

## Contractor Input Needed for State Understanding of Disability Access Construction

Contractors State License Board (CSLB) staff is working with the [California Commission on Disability Access](#) (CCDA) to ensure parking construction projects in California comply with the Americans with Disabilities Act (ADA) requirements.

Your input is essential for CSLB and CCDA to learn which topics would be useful to include in a toolkit for California business owners and operators, and local government and building industry professionals.

### Please Take the Survey by Friday, October 1

The survey is designed for contractors and construction managers and will take about 10 minutes to complete.

Click [here](#) to take the survey.

### About the Survey

- Responses are welcome from contractors who build, pave, stripe, or are otherwise involved in the construction of private parking lots.
- The survey was developed by a special consultant to the CCDA.
- The survey is based on topics in Chapter 11B (Accessibility to Public Buildings, Public Accommodations, Commercial Buildings and Public Housing) of the California Building Standards Code (Title 24, California Code of Regulations).

Thank you for your assistance with this important matter.
